Saginaw County Commission on Aging Launches New Wednesday Senior Night Partnership at Spaulding Township Hall

Pilot Program Focused on Connection, Recreation, Wellness, and Community Engagement for Adults 60+

Saginaw County Commission on Aging is excited to announce a new partnership with Spaulding Township to launch an innovative **Wednesday Senior Night** pilot program at Spaulding Township Hall — creating a vibrant new destination for connection, recreation, entertainment, and community engagement for adults 60+ throughout the region.

The kickoff event is projected for:

 **Spaulding Township Hall**

5825 Cole Road
Saginaw, MI 48601

 **Wednesday, July 8, 2026**

 **9:00 a.m.- 2:00pm**

While Spaulding Township Hall is already an established community facility, this new collaboration introduces a dedicated Commission on Aging initiative focused on expanding opportunities for social connection, wellness programming, recreation, lifelong learning, and active community involvement.

Township Supervisor Ed Masters and Commissioner Sheldon Matthews (“Snap”) have both expressed excitement and support for the partnership and the positive impact it could have for the community.

Commission on Aging
PRESS RELEASE

The Wednesday Senior Night program will feature a modern and welcoming environment with amenities including:

- Complimentary high-speed Wi-Fi
- Two 80-inch television screens
- Performance stage area for entertainment and special events
- Social gathering and lounge space
- Outdoor Pavilion area
- Expansive outdoor grounds for recreation and seasonal activities
- Pickleball opportunities and wellness-focused activities
- Future opportunities for games, music, educational workshops, fitness activities, social events, and community celebrations

This partnership reflects the direction community engagement should be moving — welcoming, active, connected, and full of opportunity. At the Commission on Aging, the focus is on creating spaces where adults 60+ feel energized, included, and inspired to stay socially and physically engaged within the community. The organization is excited about the possibilities this pilot program could create moving forward and the potential for expanded programming opportunities in the future.

Residents, families, caregivers, and community members are encouraged to attend the June 3 launch event and experience the vision behind this exciting new partnership firsthand.

A new partnership. A new energy. A new place to connect.
